Course information

Course prerequisites

The spring project should be taken after all other courses have been completed. Prior knowledge of statistics and or econometrics is beneficial.

Learning objectives

- In this course students will:
 - Critically engage with the current state of the art of conflict research.
 - Learn the basics of spatial data processing and analysis.
 - Formulate their own research question.
 - Design their own research using the methods discussed and tested in the course.
 - Combine spatial methods together with social scientific and/or legal research methods in with to answer their research question.
 - Formulate the results of their studies/research in a clear, logical & precise manner.

Course content

This Spring Project will focus on the determinants (e.g., grievances, looting natural resources) and consequences (e.g., forced migration, lower growth rates) of armed conflict across Africa. We will focus on the spatial analysis of conflict. Hence, we will discuss papers that employ spatial data and methods to analyses the determinants and consequences of armed conflict. Furthermore, students will be trained the basics of processing and analyzing the spatial data themselves.

Course structure

The course will be held weekly and consists of lectures (mainly till the break) and exercises in which students will be trained in software to process and analysis spatial data. In the second part of the course (after the break) students will engage more and more in analysis the data that they learned to process and develop their own research project.

Additional course information

In the case of the President's Board having to implement new directives due to the SARS-CoV-2 pandemic in SpS2021, the course information listed above will be changed as follows:

- The course will move to online and be conducted via the online platform Zoom.
- The course will be recorded and recordings will be available for 30 days from date posted.
- Should there be any changed implementation modalities of the course the lecturer will inform students via Canvas & email.
- There are no changes to the examination information with the exception that group presentations will be conducted online.

Examination information

Examination sub part/s

1. Examination sub part (1/1)

Examination time and form

Decentral - Group examination paper with presentation (all given the same grades) (100%)

Examination time: term time

Remark

Allowed group sizes 1 - 5 students.

Examination-aid rule

Term papers

Term papers must be written without anyone else's help and in accordance with the known quotation standards, and they must contain a declaration of authorship which is a published template in StudentWeb.

The documentation of sources (quotations, bibliography) has to be done throughout and consistently in accordance with the chosen citation standard such as APA or MLA.

For papers in law, the legal standard is recommended (by way of example, cf. FORSTMOSER, P., OGOREK R. et SCHINDLER B., *Juristisches Arbeiten: Eine Anleitung für Studierende*, newest edition respectively, or according to the recommendations of the Law School).

The indications of the sources of information taken over verbatim or in paraphrase (quotations) must be integrated into texts in accordance with the precepts of the applicable quotation standard, while informative and bibliographical notes must be added as footnotes (recommendations and standards can be found, for example, in METZGER, C., *Lern- und Arbeitsstrategien*, newest edition respectively).

For any work written at the HSG, the indication of the page numbers is mandatory independent of the chosen citation standard. Where there are no page numbers in sources, precise references must be provided in a different way: titles of chapters or sections, section numbers, acts, scenes, verses, etc.

Supplementary aids

--

Examination languages

Question language: English

Answer language: English

Examination content

Term papers are to be written in groups of 1 to 5 students. The goal is to use the techniques acquired in the course to answer a

research question developed by the groups and connected to the theme of the course. Each group will present their question and approach in the second part of the course.

Examination relevant literature

All materials covered in course:

- Lovelace, R. Nowosad, J., and J. Muenchow. 2018. Geocomputation with R. CRC Press: <https://geocompr.robinlovelace.net>
- Groelund, G. and H. Wickham. 2018. R for Data Science. O'Reilly: <http://r4ds.had.co.nz>
- Farnsworth, G.V., 2008, Econometrics in R: <https://cran.r-project.org/doc/contrib/Farnsworth-EconometricsInR.pdf>

Please note

Please note that only this fact sheet and the examination schedule published at the time of bidding are binding and takes precedence over other information, such as information on StudyNet (Canvas), on lecturers' websites and information in lectures etc.

Any references and links to third-party content within the fact sheet are only of a supplementary, informative nature and lie outside the area of responsibility of the University of St.Gallen.

Documents and materials are only relevant for central examinations if they are available by the end of the lecture period (CW21) at the latest. In the case of centrally organised mid-term examinations, the documents and materials up to CW 12 are relevant for testing.

Binding nature of the fact sheets:

- Course information as well as examination date (organised centrally/decentrally) and form of examination: from bidding start in CW 04 (Thursday, 28 January 2021);
- Examination information (regulations on aids, examination contents, examination literature) for decentralised examinations: in CW 12 (Monday, 22 March 2021);
- Examination information (regulations on aids, examination contents, examination literature) for centrally organised mid-term examinations: in CW 12 (Monday, 22 March 2021);
- Examination information (regulations on aids, examination contents, examination literature) for centrally organised examinations: two weeks before the end of the registration period in CW 14 (Thursday, 8 April 2021).
