Course information

Course prerequisites

This course is for PhD students.

Learning objectives

Enable participants to present research in a structured and concise way. Introduce participants to current research topics and/or methodological issues and approaches within the topic area asset management.

Course content

In the PhD course "Topics in Asset Management", participants present current research topics published in top finance and economics journals. Alternatively, they can opt to present their own research, which may be an early-stage research paper. The course aims at enabling participants to present research in a structured and concise way and introducing them to current research topics and/or methodological issues and approaches within the topic area asset management. Moreover, students will learn to critically think about and assess empirical finance research. The course serves as a platform for the discussion of current research in the field of finance.

Course structure and indications of the learning and teaching design

The course consists of an introductory class in the first week of the semester and two presentation slots in the second half of the semester.

Course literature

Will be announced in the first session.

Additional course information

All course material will be made available on Canvas.

Office hours by Prof. Dr. Manuel Ammann are held at Unterer Graben 21. Please make an appointment via e-mail, manuel.ammann@unisg.ch.

Office hours by Prof. Dr. Markus Schmid are held at Unterer Graben 21. Please make an appointment with Mrs. Beatrix Kobelt, beatrix.kobelt@unisg.ch, 071/244-7042.

Examination content

Participants will prepare a term paper and hold a presentation in the second half of the semester.

Students have two options. The first is to present a recent research topic (i.e. a small group of papers) published in top finance and economics journals. These topics will be selected by the lecturers and communicated in the introductory session. Specifically, students can bid for a topic included in the list of topic proposals presented by the lecturers. The term paper under option 1) will be a literature review centered on the topic chosen, but will include the most important recent literature related to the chosen topic. The second option is to present own work, usually an early-stage version of one of the PhD thesis papers. In this case, the term paper will be a preliminary draft of the respective research paper.

The first introductory session is compulsory for all students taking the course for credit. In this session, the lecturers will allocate the topics to be prepared by students choosing option 1) and define topics with students opting to present their own research under option 2). Seminar participants will have the opportunity to ask questions. The term papers will have to be handed in by Thursday, May 18, no later than 23:59:59 CET.

Term papers should be sent as a pdf-file by email to manuel.ammann@unisg.ch and markus.schmid@unisg.ch. Presentation slides do not need to be handed in or distributed to participants. Participants are expected to participate actively in the open discussion.

Examination relevant literature

Will be announced in the first session.

Please note

Please note that only this fact sheet and the examination schedule published at the time of bidding are binding and takes precedence over other information, such as information on StudyNet (Canvas), on lecturers' websites and information in lectures etc.

Any references and links to third-party content within the fact sheet are only of a supplementary, informative nature and lie outside the area of responsibility of the University of St.Gallen.

Documents and materials are only relevant for central examinations if they are available by the end of the lecture period (CW21) at the latest. In the case of centrally organised mid-term examinations, the documents and materials up to CW 12 are relevant for testing.

Binding nature of the fact sheets:

- Course information as well as examination date (organised centrally/decentrally) and form of examination: from bidding start in CW 04 (Thursday, 26 January 2023);
- Examination information (regulations on aids, examination contents, examination literature) for decentralised examinations: in CW 12 (Monday, 20 March 2023);
- Examination information (regulations on aids, examination contents, examination literature) for centrally organised mid-term examinations: in CW 12 (Monday, 20 March 2023);
- Examination information (regulations on aids, examination contents, examination literature) for centrally organised examinations: two weeks before the end of the de-registration period in CW 15 (Monday, 10 April 2023).
