[7.385.1.00 Current Regimes in World Politics](#) -- Englisch -- [Frei Christoph](#)

Course information

Course prerequisites

A basic understanding of conventional theories of International Relations (realism, liberalism, constructivism, including their respective neo-versions).

Learning objectives

- (1) Learn better to understand how specific regimes in world politics work (interdisciplinary knowledge and comprehension);
- (2) Learn to compare elements across regimes (connect, contrast, distill general features);
- (3) Get acquainted with a number of analytical tools indispensable for the reduction of complexity (organize, analyze);
- (4) Improve and demonstrate skills and content mastery (apply, create) by dint of written assignments.

Course content

Wherever we look, national interests seem to bedevil international negotiations. Shall we ever start fighting climate change in a concerted, adequate manner? How can we make sure that nuclear weapons will remain a temporary trust in the hands of a few? How to enhance socio-economic development in poorly governed countries around the planet? How to keep narrow nationalisms from blocking vulnerable populations' access to COVID-19 vaccines once the stuff is available? In sum, and more broadly speaking: how can we defeat that powerful "cancer of Westphalia" (Paul Harris), that is, move beyond an anarchy of sovereign states and all its dire implications?

Confronted with questions such as these, liberal scholars of International Relations will tell you that cooperation and concerted action is indeed possible under anarchy, and that multilateral institutions can help structure the behavior of states. Liberals thus believe that *regimes* (bundles of institutions) can bring about an environment conducive to the convergence of state interests. Realist scholars, on the other hand, will tell you that regimes merely reflect the distribution of power in the international system—that they are only just intervening variables between power, the real independent variable, and cooperation, the dependent variable. For realists, institutions such as the World Bank or the IMF are tools of American grand strategy at best.

While we won't have to decide who is wise and who is otherwise, we shall cheerfully engage with world politics by looking at current regimes and exploring select aspects and elements. Why do regimes flourish at one time and weaken at another? What are requirements for the effectiveness of a regime? Do regimes collide? And how do regimes fit into the more fashionable universe of international and global governance?

If you are interested in issue areas such as climate and energy, nuclear proliferation, development, migration or health, you might want to register for this course as it is, precisely, the corresponding five regimes that we shall discuss over the course of twelve weeks.

Course structure

Throughout the semester, we will convene for two hours every week for lectures and discussion. Beyond the classroom, self-study will play a major part by dint of weekly mandatory readings on the one hand and weekly written assignments on the other. In fact, two out of four credits will be conferred based on this latter element. Out of a total of nine assignments offered, you will have to edit and submit at least five.

Course literature

At the beginning of the semester, mandatory readings will be available both in the format of a physical reader and online on StudyNet.

Additional course information

Throughout the semester, lectures will be transmitted simultaneously and recorded. The recordings will remain available on StudyNet during 30 days.

Should new directives be issued due to the pandemic and prevent us from convening in the classroom, lectures will continue to be offered via Zoom. This being said, the examination format is independent of whether we meet in the classroom or online.

Examination information

Examination sub part/s

1. Examination sub part (1/2)

Examination time and form

Decentral - examination paper written at home (individual) (50%)

Examination time: term time

Remark

Assignments related to mandatory readings

Examination-aid rule

Term papers

Term papers must be written without anyone else's help and in accordance with the known quotation standards, and they must contain a declaration of authorship which is a published template in StudentWeb.

The documentation of sources (quotations, bibliography) has to be done throughout and consistently in accordance with the chosen citation standard such as APA or MLA.

For papers in law, the legal standard is recommended (by way of example, cf. FORSTMOSER, P., OGOREK R. et SCHINDLER B., *Juristisches Arbeiten: Eine Anleitung für Studierende*, newest edition respectively, or according to the recommendations of the Law School).

The indications of the sources of information taken over verbatim or in paraphrase (quotations) must be integrated into texts in accordance with the precepts of the applicable quotation standard, while informative and bibliographical notes must be added as footnotes (recommendations and standards can be found, for example, in METZGER, C., *Lern- und Arbeitsstrategien*, newest edition respectively).

For any work written at the HSG, the indication of the page numbers is mandatory independent of the chosen citation standard. Where there are no page numbers in sources, precise references must be provided in a different way: titles of chapters or sections, section numbers, acts, scenes, verses, etc.

Supplementary aids

No restrictions.

Examination languages

Question language: English

Answer language: English

2. Examination sub part (2/2)

Examination time and form

Decentral - Written examination (50%, 60 mins.)

Examination time: term time

Remark

Few open questions (e.g. two out of four)

Examination-aid rule

Open Book

Students are free to choose aids but will have to comply with the following restrictions:

- All the pocket calculators that are not of the Texas Instruments TI-30 series are explicitly inadmissible.
- In addition, any type of communication, as well as any electronic devices that can be programmed and are capable of communication such as electronic dictionaries, notebooks, tablets, mobile telephones and others, are inadmissible.
- Students are themselves responsible for the procurement of examination aids.

Supplementary aids

--

Examination languages

Question language: English

Answer language: English

Examination content

1. Over the course of the semester, students hand in a number of written assignments that relate to the mandatory readings. These readings, in turn, provide background information about the regime on hand or else shed light on specific aspects/elements/cases.

2. The final exam will include a small number of open questions and embrace the totality of the material covered in the course (lectures, discussions, mandatory readings).

Examination relevant literature

All relevant literature is comprised in the Reader.

Please note

Please note that only this fact sheet and the examination schedule published at the time of bidding are binding and takes precedence over other information, such as information on StudyNet (Canvas), on lecturers' websites and information in lectures etc.

Any references and links to third-party content within the fact sheet are only of a supplementary, informative nature and lie outside the area of responsibility of the University of St.Gallen.

Documents and materials are only relevant for central examinations if they are available by the end of the lecture period (CW51) at the latest. In the case of centrally organised mid-term examinations, the documents and materials up to CW 42 are relevant for testing.

Binding nature of the fact sheets:

- Course information as well as examination date (organised centrally/decentrally) and form of examination: from bidding start in CW 34 (Thursday, 20 August 2020);
- Examination information (regulations on aids, examination contents, examination literature) for decentralised examinations: in CW 42 (Monday, 12 October 2020);
- Examination information (regulations on aids, examination contents, examination literature) for centrally organised mid-term examinations: in CW 42 (Monday, 12 October 2020);
- Examination information (regulations on aids, examination contents, examination literature) for centrally organised examinations: two weeks before the end of the registration period in CW 44 (Thursday, 29 October 2020).
